PROFESSIONAL SUMMARY

Systems Engineer and Full Stack Developer with 10 years of experience. Specialist in designing scalable ecosystems using **Laravel, Vue 3, and Docker-based microservices architectures**. Currently focused on integrating **Generative AI (LLMs)** and **RAG (Retrieval-Augmented Generation)** workflows to transform traditional applications into high-performance intelligent solutions.

TECHNICAL SKILLS

- **Core Backend:** PHP (Laravel, CodeIgniter), Python (FastAPI, Django), Node.js.
 - **Modern Frontend:** Vue 3 (Composition API), React, TypeScript, Tailwind CSS.
 - **AI & Data:** LLM Integration (OpenAI, Anthropic), Vector Databases (ChromaDB/Pinecone), RAG workflows.
 - **Infrastructure & DevOps:** Docker (Expert), CI/CD Pipelines, Git, Shell Scripting (Zsh/Tmux).
 - **Databases:** Relational Architectures (MariaDB, MySQL, MSSQL) and NoSQL (MongoDB).
 - **Mobile:** Cross-platform development with Flutter.
-

PROFESSIONAL EXPERIENCE

Full Stack Developer | ISEI Empresa Inteligente. *September 2023 – Present*

- **Advanced Architecture:** Designed complex applications using Laravel 11 (multi tenants) and Vue 3, prioritizing modularity and performance.
- **AI Specialization:** Leading the implementation of intelligent analysis modules and process automation via AI APIs.
- **Operational Efficiency:** Optimized production environments through Docker container orchestration, significantly reducing deployment times.
- **Software Quality:** Implemented unit testing protocols and comprehensive technical documentation under international standards.

Web Project Lead | Administración Enrique Duhau. *January 2023 – May 2023*

- **Systems Engineering:** Directed the development of inventory management and technical support platforms using CodeIgniter and reactive architectures.
- **Data Optimization:** Restructured critical databases to improve query speeds in high-traffic environments.
- **Agile Leadership:** Managed project delivery using Scrum, ensuring alignment between business objectives and technical execution.

IT Assistant Manager / IT Analyst | Hato el Oso (Bufalinda). *March 2016 – December 2022*

- **Digital Transformation:** Successfully migrated legacy Excel-based systems to real-time web applications integrated with Microsoft Dynamics SL.
- **ERP Integration:** Developed product serialization and traceability systems, automating logistics and financial processes.
- **Team Management:** Acted as a key technical lead, establishing the foundation for an Agile culture within the organization.

EDUCATION

- **Systems Engineer** | *Universidad de Oriente (Monagas, Venezuela)* | 2024
-

LANGUAGES

- **Spanish:** *Native.*
- **English:** Intermediate-Advanced (Professional working proficiency).
